Re: Petition for Review of San Francisco Regional Water Board Letter

Dear Ms. Bashaw:

Texas Instruments Incorporated ("TI") petitions the California Water Resources Control Board ("State Water Board") to review the May 13, 2014 letter entitled ***"Requirement for Vapor Intrusion Evaluation Workplan for the Texas Instruments Incorporated, 2900 Semiconductor Drive, Santa Clara, Santa Clara County"*** issued by the California Regional Water Quality Control Board, San Francisco Bay Region ("Regional Water Board"). The May 13, 2014 letter requires TI to conduct a vapor intrusion evaluation work plan. TI files this petition under Section 13320 of the California Water Code and the State Water Board's implementing regulations at Section 2050 of Title 23 of the California Code of Regulations. TI's Petition is enclosed.

TI files this Petition to protect its right of appeal and requests that the State Water Board hold this Petition in abeyance while negotiations with the Regional Water Board continue, in accordance with Section 2050.5(d) of the State Water Board's regulations.
